FAQ

Custom Bridal Gown Cost

What is the average price for a custom wedding dress?

Most clients on average invest £2,500 - £5,500 in their couture bridal gowns. For more intricate and heavily beaded or embroidered bespoke wedding dress designs, clients on average invest £5,500 – £9,500+.

Bridal attire investments are final and no refund will be issued. Your wedding dresses are made-to-order to your specific body measurements and your design style. Wedding outfits are time consuming and requires attention to details therefore we cannot accept returns on wedding attires.
